Software Engineer with 2+ years of experience in React.js, React Native, JavaScript, HTML5, CSS3, and Redux. Skilled in building responsive, scalable web and mobile apps, integrating APIs, and optimizing UI performance. Hands-on with Azure, CI/CD pipelines, and testing, passionate about creating modern, user-friendly interfaces.

Education

- **National Institute of Technology (NIT), Mizoram** Aug 2018 – May 2022
Bachelor of Technology – Computer Science and Engineering

Experience

- **Star Intellisoft Services Private Limited** March 2023 – Current
Software Engineer
Web and Mobile App Development | Al Habtoor Motors, Oman Trading Establishment and Towell Auto Center
 - Developed responsive web apps with React.js and JavaScript, and cross-platform mobile apps with React Native for Android.
 - Designed UIs using HTML, CSS, Flexbox, and Grid, ensuring accessibility and modern design standards.
 - Integrated REST APIs with Axios and managed state with Redux for efficient data flow.
 - Optimized performance through lazy loading, code splitting, and tools like Chrome DevTools.
 - Implemented CI/CD with GitHub Actions, deploying apps via Azure and Codemagic.
 - Ensured quality with unit/integration tests using Jest and React Testing Library.
 - Collaborated in agile teams using Jira, delivering features on time.Tech Stack: **React Native, React.js, JavaScript, HTML, CSS,**
- **Tool Room and Training Center, Guwahati** Dec 2020 – Apr 2021
Software Development - Intern

During my internship at Tool Room and Training Center, I had the opportunity to work on two key areas: Java Development and Web Design.

 - **Java Developer Trainee:**
I improved my skills as a Java Developer by working on different Java APIs in projects. This job gave me useful experience and helped me better understand how to develop Java applications and solve problems.
Tech Stack: **Core Java, SQL**
 - **Graphics and Web Designer Trainee:**
As a Web Design Intern, I improved my proficiency in HTML and CSS, contributing to web design projects. This role enhanced my ability to design user-friendly websites and implement visually appealing, responsive layouts.
Tech Stack: **HTML, CSS, JavaScript.**

Projects

- **Personal Portfolio** 2025
 - Developed a responsive portfolio website using React.js and Material UI, incorporating smooth animations, a modern design, and mobile-friendly navigation. The project highlights my ability to create visually appealing and user-friendly interfaces, with a focus on performance and interactivity. The site offers a seamless experience across devices, ensuring a smooth browsing experience for users.
- **COVID-19 Query Classification Chatbot** Jan 2022 – Jun 2022
 - I developed an NLP-based chatbot to provide accurate COVID-19 information and promote health behaviors. It classifies question-answer pairs from a dataset scraped from reputable sources, using Python for efficient implementation. The system's performance was evaluated with the F1-score to ensure effective user interaction and

Technical Skills

- **Programming Languages:** JavaScript, Python, SQL, Core Java, Html, Css.
 - **Development:** ReactJS, React Native, Redux, Material UI, Bootstrap.
 - **Developer Tools:** VS Code, Postman, MySQL Workbench, PostgreSQL Workbench, Git, Bitbucket, GitHub, Codemagic, Postman.
 - **Cloud & Deployment:** Microsoft Azure
-
