

ADITYA KUMAR ARYAN

Associate Developer

+91-7782843264 | adityakumararyan101@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL, Core Java, HTML5/CSS3

Frameworks & Libraries: React.js, React Native, Redux, Redux Thunk/Persist, Axios, REST & GraphQL APIs, Material UI, Tailwind CSS, Bootstrap

Cloud & Auth: Microsoft Entra ID/MSAL, Firebase (Cloud Messaging, Crashlytics), Google Maps SDK

Practices & Tools: CI/CD (GitHub Actions, Codemagic, Bitbucket Pipelines), Agile/Scrum, Jest unit testing, i18n/localization, cross-browser/ADA accessibility, Git, Jira, Postman

PROFESSIONAL EXPERIENCE

Associate Developer

March 2023 – Present

Star Intellisoft Services Pvt. Ltd.

Hyderabad, India

- Collaborated with cross-functional Agile teams and stakeholders to define project requirements, scope, and timelines; managed sprints in Jira. Led code reviews, provided technical guidance to ensure best practices, and troubleshooted complex issues during production support across web and mobile releases. Adopted AI-assisted development tools (GitHub Copilot, Cursor) to accelerate delivery.

Project: React.js Web Applications

- Built and maintained multiple React-based enterprise portals — including a B2B parts ordering portal, vendor RFQ/supplier portal, digital showroom, vehicle leasing/booking portal, and service bay/lead-generation tools — for multi-national automotive clients across the Middle East.
- Implemented product search/filtering, cart & checkout, bulk Excel uploads, quotation workflows, vehicle configuration, and leasing bookings using Redux, Redux Thunk/Persist, and Axios.
- Secured applications with Microsoft Entra ID/MSAL authentication, with multilingual localization (i18next) and CI/CD via Bitbucket Pipelines.
- Improved application responsiveness and Time-to-Interactive through code splitting, lazy loading, and React memoization on high-traffic screens.
- Ensured code reliability through unit and integration testing with Jest and API validation with Postman.

Project: AutoExpress – React Native Mobile Application

- Developed a cross-platform React Native app for automotive dealership operations, covering vehicle inspections, image/video capture, yard management, internal vehicle transfers, fuel/tyre workflows, service handover, rental inventory, appointments, and electronic quotations.
- Implemented secure authentication, Redux state management, offline/local data persistence, Arabic/English localization, and Firebase Crashlytics monitoring.

Project: Automotive Customer Experience Application

- Developed a cross-platform React Native app for vehicle and service-contract management, appointment scheduling, test-drive booking, roadside assistance, quotation approval, invoice/down-payment workflows, online vehicle purchasing, and dealer-location search.
- Integrated Firebase Cloud Messaging, Firebase Crashlytics, React Native Maps, and the SafexPay/FAB payment gateway; added Arabic, English, and Spanish localization.

Software Development Intern

Dec 2020 – April 2021

Guwahati, India

- Built core business logic and relational data layers using Core Java and SQL; designed responsive, ADA-accessible UI components in HTML5, CSS3, and JavaScript for internal administrative tools.

TECHNICAL PROJECTS

E-Commerce Dashboard ([Live Link](#))

2024

- Built a full-featured e-commerce management platform with advanced product filtering, search, and persistent cart management using Redux, integrating RESTful APIs with secure authentication and real-time updates.
- Designed a high-performance, mobile-first UI using Material UI, focused on an intuitive administrative experience and optimized asset delivery.

Portfolio ([Live Link](#))

2025

- Built a React.js + Material UI portfolio site achieving a 95+ Google Lighthouse score for performance and accessibility.

AWARDS & RECOGNITION

- Certificate of Appreciation (2024) — Star Intellisoft, for contributions to the AutoExpress mobile platform implementation for Al Habtoor Motors.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Aug 2018 – May 2022

National Institute of Technology (NIT), Mizoram, India
